OLFACTIVE DESCRIPTION

DREAMWOOD™ BASE takes its inspiration from the iconic Mysore Sandalwood, also known as the “royal tree” in the Mysore district of Karnataka, India.

Created around DREAMWOOD™, our latest breakthrough captive ingredient from white biotechnology, DREAMWOOD™ BASE is designed for pure performance.

The traditional woody creamy warmth of sandalwood is also brought to light by our best sandalwood molecules, some of which captive.

PERFUMERY USAGE

Designed with a high amount of DREAMWOOD™, DREAMWOOD™ BASE brings naturality and natural effect, impressive tenacity, warmth and creaminess to any fragrance.

It is a cost effective alternative to the sandalwood essential oil.

HISTORY

To offer alternatives to natural wood resources, Firmenich scientists developed a range of more affordable, sustainable offerings. The first woody molecule introduced was Z11 in 1961, then came POLYSANTOL®, the first sandalwood
